

DARRYL JULIUS BASRI

Jakarta, Indonesia | +62-813-6683-9815 | darrylbasri@gmail.com | linkedin.com/in/darrylbasri | https://dbasri.dev

SUMMARY

Full-Stack Software Engineer with 2+ years of experience building and scaling production-grade internal systems, business applications, and AI-powered tools. Strong expertise in Laravel/PHP backend development, React frontend, relational databases, and modern AI integrations (RAG, LLM APIs, AI coding agents).

PROFESSIONAL EXPERIENCE

Application Developer

November 2024-Now

BCA Insurance, *Jakarta, Indonesia*

- Designed and delivered 5+ internal full-stack and web applications using Laravel, PHP, React (Vite), and MySQL/SQL Server, reducing manual administrative workflows by an estimated 40–60% across HR and marketing teams.
- Led adoption of React + Laravel architecture and established reusable frontend and API patterns, and reduced feature delivery time by ~30%.
- Owned end-to-end production deployment by configuring servers, managing environments, and optimizing database performance, resulting in stable releases with near-zero critical production incidents.
- Created internal technical documentation and mentored teammates on React, Laravel integration, and deployment workflows, cutting onboarding and improving overall team productivity.

Contract Software Developer (ERP Consulting)

July 2023-February 2024

PT. Vindori, *Jakarta, Indonesia*

- Designed and customized ERP modules and internal workflows using business logic, approval flows, and automation to align system behavior with real operational processes.

Web Developer

January 2022-August 2022

Near Me Car Wash, *Burnaby, Canada*

- Developed the full customer-facing booking website using HTML, CSS, JavaScript, and backend integrations to support online service scheduling.

PROJECTS

Career-Ops – AI Job-Search Workstation | github.com/dbasri12/careerops | Node.js, HTML/CSS

- Built a local AI-powered (Anthropic API) job-search application that scrapes postings, evaluates roles, tailors resumes, generates interview preparation, drafts outreach, and tracks applications in a single interface.
- Designed lightweight **Node.js/Express** backend to keep all workflows local and private.

MCP Server | github.com/dbasri12/mcp | PHP, Laravel, Wamp

- Created a production-ready PHP MCP server for a WAMP environment that exposes multiple internal applications through a single streamable HTTP endpoint

SKILLS

- *Computer Languages:* PHP, JavaScript, SQL, TypeScript, Python
- *Frameworks & Tools:* Laravel, React (Vite), Next.js, Node.js/Express, REST APIs, Playwright, Anthropic API, Qwen Models
- *Databases:* MySQL, SQL Server, PostgreSQL
- *AI & Productivity:* RAG architectures, LLM integration, AI coding agents (Codex, Claude Code), prompt engineering

EDUCATION

Simon Fraser University, Burnaby, BC, Canada

2018 - 2023

- *BSc in Computer Science*, Dean's Honors Roll
